

Convenience, Portability & Precision

The NV[®] PRO3 Microlaser delivers all the power and capabilities of a much larger desktop laser but in a small package. The laser's innovative cordless design gives you unprecedented freedom to move between operatories and is optimized for all of your periodontal, restorative and orthodontic procedural needs.

- 12 user-friendly preset procedures to increase efficiency
- Feather-light, cordless laser reduces fatigue (only 1.9 oz.)
- Extended battery life and wireless foot pedal enable easy movement between operatories
